The Product - Sohum India Opportunities Fund

A long only fund with atleast 70% holding in Large Cap Stocks, 10-30% in Mid & Small Cap Stocks. **Currently, we are holding 82.0% in Large Cap (17 Nifty & 8 Non Nifty Stocks), 2.7% in Mid Cap (3 Stocks), 10.8% Small Cap (6 Stocks) and 4.5% Cash in our portfolio.** A bottoms-up approach with clear view on markets, sectoral allocations and on businesses that offer fairly strong runway for growth, have a fortified balance sheet and which are available at valuations that we consider are below their fair value. [Total Portfolio Holdings : 34 Stocks] # Large Cap, Mid Cap & Small Cap definition as per Bloomberg

Research Process

OUR STRENGTH :

1. Focussed Universe
2. In depth research
3. Strong Domain Expertise
4. Agility and Speed in action
5. Cohesive effort of Investment Team to create alpha.

Risk Framework of the portfolio

- No large-cap stock to exceed 10% of investible funds.
- No mid/small-cap stock to exceed 3% of AUM (at cost)
- Fund would have atleast 50% of combined weight of Top 10 Nifty stocks
- Liquidity of portfolio to be high, Active ratio to be < 50%
- Cash levels at 0-10%. In case of froth in market, can go to 15%

Management Filtering

- Our combined experience helps us in Management filtering process. Capital allocation, Return Ratios, Management Stake, Churn in top management, Attitude to minority shareholders, Use of leverage, Channel checks are key factors we monitor in our management filtering criteria.
